## **WHAT CRISIS?**

Government policies are restricting your access to natural health products and your choice of ordinary consumer products, *more than ever before*. They say it's for safety; that government control is vital for our protection.

Join us, whether you're a concerned citizen, business owner or natural health industry stakeholder. Learn how the Natural Health Product Regulations allow Health Canada to raid legitimate business, pulling products we've taken for granted off store shelves. At the same time, Bill C-36: Canada's Consumer Product Safety Act is attacking manufacturers' and consumers' constitutional and legal rights.

Shawn Buckley is crossing the country with his shocking lecture demonstrating the end of Canadians' rights and freedoms. Mr. Buckley has his clients' permission to share real-life stories of private businesses in jeopardy. Understand the life and death consequences of driving natural health products from the market and discover how legislation moves unelected, untrained government inspectors above the rule of law.

**Become aware of the danger to Canadians' individual freedoms and livelihoods. Say "No" and join the fight to stop the criminalization of products you rely on for health. Be there, if you believe in protecting personal choice, privacy and freedom. We believe we do not have to compromise.**

**Shawn Buckley LL.B**
