**House of Commons
Parliament Buildings
Ottawa, Ontario
K1A 0A6**

Date:

Dear _____ MP

I have enclosed some information which I would like you to read.

In the summer of 2013 every Federal MP, including your constituency office, received *at least one print copy* of the **Charter of Health Freedom**. To date the letters received back from MPs to concerned citizens have disappointed many. Scans of several of these were placed on a website for the public, and you, to view at www.nhppa.org.

Constitutional and Federal trial lawyer Shawn Buckley, compared and analyzed the letters. He is the president of the Natural Health Products Protection Association, an organization of which I am a member. In the enclosed document he notes many common threads in the responses, party by party. His analysis offers advice for both MPs and constituents to continue the conversation about Health Canada's regulation of natural health products.

I have also enclosed his analysis of the position of Canada's legal system with regard to our constitutional rights.

As your constituent and a voter, I ask you to consider the enclosed evidence explaining that both my government and the Canadian legal system are placing my health and that of my family at risk.

Since my freedom of choice is currently being eroded by unnecessarily onerous regulation of safe and effective natural health products, I would appreciate your thoughts in a considered and timely reply.

Please bear in mind that I have already read, and found somewhat wanting, the comments you will see referred to in the enclosed documents.

Personal information:

Shawn Buckley is always happy to talk directly with any MP who wishes to investigate these issues more deeply. He is able to clearly articulate the concerns of Canadians such as myself and can be contacted via the NHPPA, who will facilitate a phone call, SKYPE session or personal meeting. Or you can contact him directly at his law office.
